Ref. No. AERB/RSD/MAS/RT/Circular/2023/ 859

30 October 2023

**Sub: Ensuring availability of qualified and trained professionals in Radiotherapy**

A few instance has come to the notice of AERB in recent past that institutes have violated regulatory requirements by treating patient in the radiotherapy department in the absence of Medical Physicist and Radiological Safety Officer (RSO). During the absence, the patient treatment was continued based on the calculation made by Radiotherapy Technologist OR through online consultation. Further, it is also observed that treatment continued in absence of adequate number of radiotherapy professionals (Radiation Oncologist, Medical Physicist, Radiotherapy Technologist).

Although AERB issued a similar circular in past with respect to availability of qualified and trained professionals, a few institutions are not adhering to it. In these cases, AERB has suspended the license for operation of those intuitions, withdrawal of RSO approval, suspended radiation professional registration of medical physicist, suspended radiation professional registration of radiation oncologist etc.

Therefore, all radiotherapy institutes are directed to ensure the availability of adequate number of qualified and trained professionals (Radiation Oncologist, Medical Physicist, Radiotherapy Technologist) at all times in radiotherapy installations for radiotherapy treatment, failing to which, enforcement action as deemed fit such as withdraw/suspension of operational license will be taken in accordance with Atomic Energy Act, 1962 and Atomic Energy (Radiation Protection) Rules, 2004.

(P.K. Dash Sharma)

To,  
All Radiotherapy Institutions and Radiotherapy professionals
